1. Introduction

1.1 Purpose of the Application

The Proposals & Projects Management System is a centralized platform used to manage proposals and projects. For a Centre Head, the system provides visibility into all proposals and projects belonging to the Groups within the Centre Head's assigned Centre.

The Centre Head can manage project progress, project status, financial information, project documents, communication, notifications, and analytics across all Groups within their Centre.

1.2 Purpose of the User Manual

This manual explains how to use the Centre Head module of the system. It covers:

- Logging into the system
- Navigating the Centre Head dashboard
- Viewing proposals and projects belonging to the Centre
- Viewing project and proposal details
- Using Chats
- Viewing project documents
- Viewing Centre notifications
- Using Centre Head Analytics
- Understanding drill-down navigation
- Using filters, charts, metrics, and exports
- Understanding Centre Head permissions and restrictions

1.3 Intended Users

- Centre Heads who are responsible for manage and overseeing proposals and projects belonging to all Groups within their assigned Centre.

2. System Overview

2.1 Overview of the Application

After login, the system automatically identifies the user as a Centre Head and restricts the displayed data to the Centre Head's assigned Centre. The Centre Head has view and monitoring access to the proposals and projects across all Groups within their Centre.

The Centre Head can view:

- All Groups under their assigned Centre
- All proposals belonging to those Groups
- All projects belonging to those Groups

- Project coordinators
- Project details
- Project status
- Project documents
- Centre-related chats
- Notifications relevant to the Centre
- Centre-level analytics

2.2 Important Permission

IMPORTANT PERMISSION

A Centre Head is a view-only user for proposals and projects. The Centre Head cannot create proposals, cannot create proposal documents, cannot upload project or proposal documents, and cannot perform Scientist-level proposal creation activities or modify proposal records.

3. Login

3.1 Login Procedure

1. Open the Proposals & Projects Management System using the link or shortcut provided by your organization.
2. Enter the credentials issued to you by your system administrator.
3. Submit your credentials to sign in to the system.
4. The system identifies the account as a Centre Head.
5. The system automatically restricts the displayed data to the Centre Head's assigned Centre.

3.2 Required Credentials

You will need the username and password provided to you by your system administrator. If you do not have login credentials, or have forgotten them, contact your administrator or the PPM team for assistance.

3.3 Resetting a Forgotten Password

If you have forgotten your password, use the Forgot Password option on the login page to reset it through a 3-step verification process: Email, Verify OTP, and New Password.

How to Reset Your Password

1. Click "Forgot Password?" on the login page to open the Reset Password modal.
2. Enter your registered email address and click "Get OTP".
3. Enter the 6-digit OTP sent to your mailbox to verify your identity.

4. Define and confirm your new password (minimum 6 characters), then log back in with your new credentials.

3.4 Login-Related Notes

NOTE

After logging in, the system automatically identifies the user as a Centre Head. All proposals, projects, documents, chats, notifications, and analytics displayed to the Centre Head are scoped to their assigned Centre. The Centre Head does not see projects belonging to other Centres.

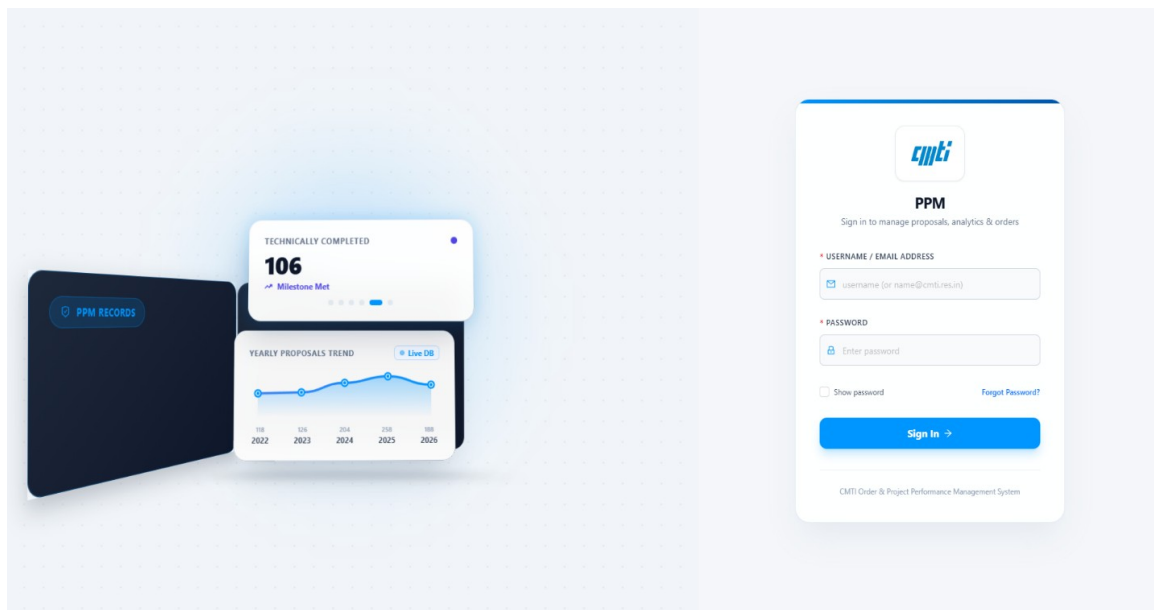

Figure 1

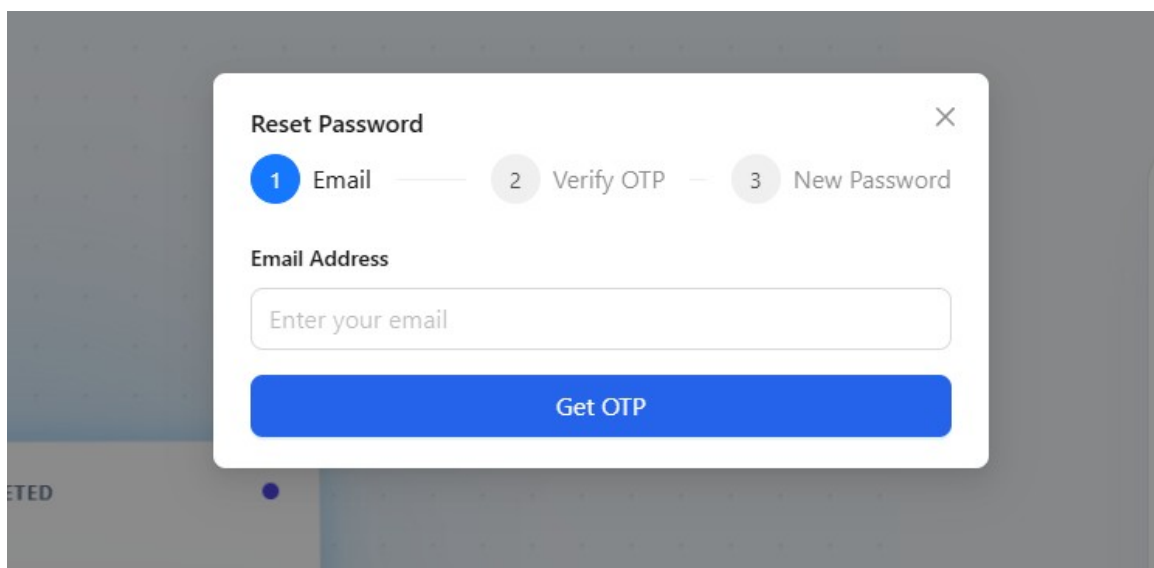

Figure 2

4. Main Navigation Menu

Once you have logged in, a navigation sidebar is displayed on the left side of the screen. This sidebar is your starting point for every task in the system and contains the following five items, in this order:

Sidebar Item	Takes You To
Proposals / Projects	Your central view of proposals and projects belonging to your Centre.
Chats	The messaging system for communicating with Project Coordinators and Admin regarding your Centre's proposals and projects.
Projects Documents	The document inventory for projects belonging to all Groups within your Centre.
Notification	Alerts and updates relating to your Centre's proposals and projects, marked with a count badge.
Centre Head Analytics	Your Centre-level analytics dashboard with KPI cards, charts, and drill-down views.

NOTE

The Notification item displays a red badge with a number showing the current count of unread or pending notifications relevant to your Centre. This count updates as new alerts arrive.

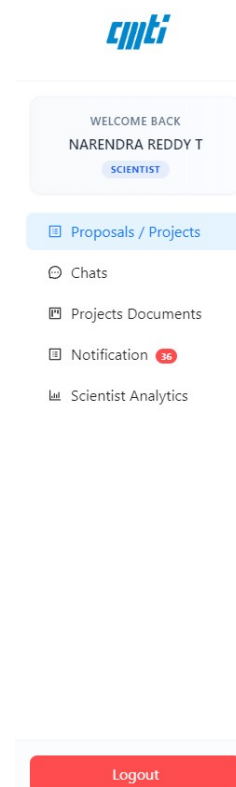

Figure 3

5. Application Modules

This section explains each module in the order it appears in the main navigation sidebar, immediately after login.

5.1 Proposals / Projects

Purpose: The Proposals / Projects section provides the Centre Head with a centralized view of all proposals and projects belonging to the Groups within their Centre.

How to access: Click Proposals / Projects at the top of the main navigation sidebar.

The Centre Head can:

- View proposals across all Groups within the Centre
- View converted projects
- View ongoing projects
- View completed projects
- View project information
- View proposal information
- View project coordinator information
- View Group information
- Inspect project details
- Review project status and financial information

IMPORTANT

This section is view-only for Centre Heads. Centre Heads cannot create proposal. Centre Heads also cannot upload proposal or project documents from the Centre Head account.

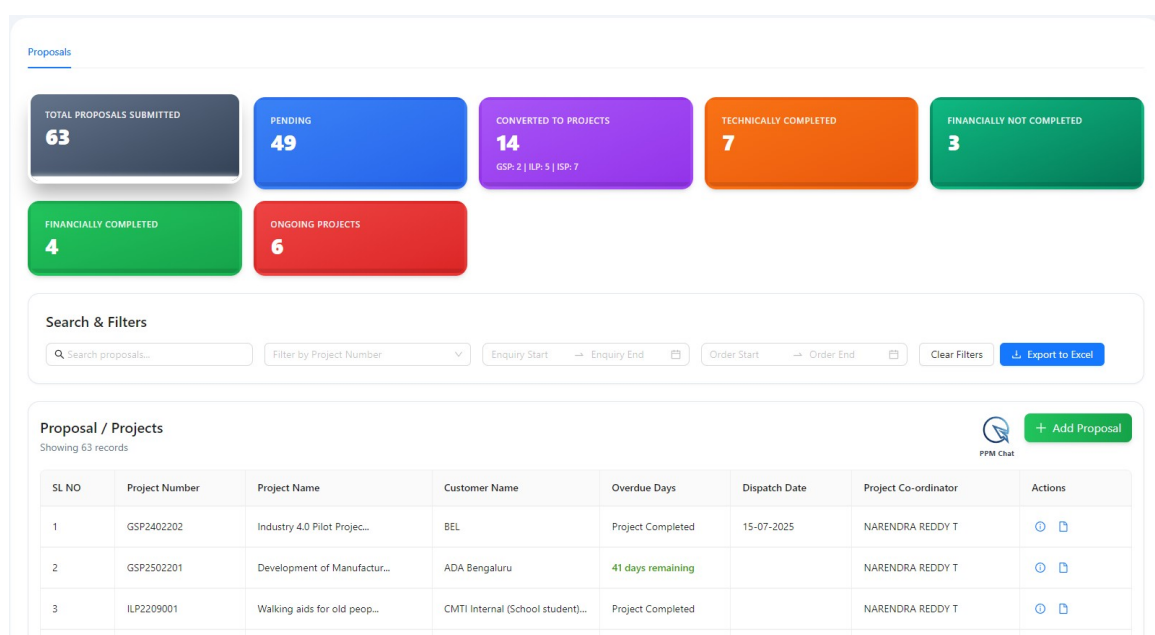

Figure 4

5.2 Chats

Purpose: The Chats module allows the Centre Head to communicate regarding projects and proposals belonging to Groups within their Centre.

How to access: Click Chats in the main navigation sidebar.

The Centre Head can communicate with:

- Project Coordinators
- Scientists / project team members where permitted
- Group Heads
- Admin of Centre projects

Chats can be associated with specific projects or proposals. The Centre Head can:

- View individual project communication
- Take part in Centre/project-related chats
- View previous messages
- Send messages
- Share information through chats where the system permits it

NOTE

Centre Heads cannot create proposals through chat.

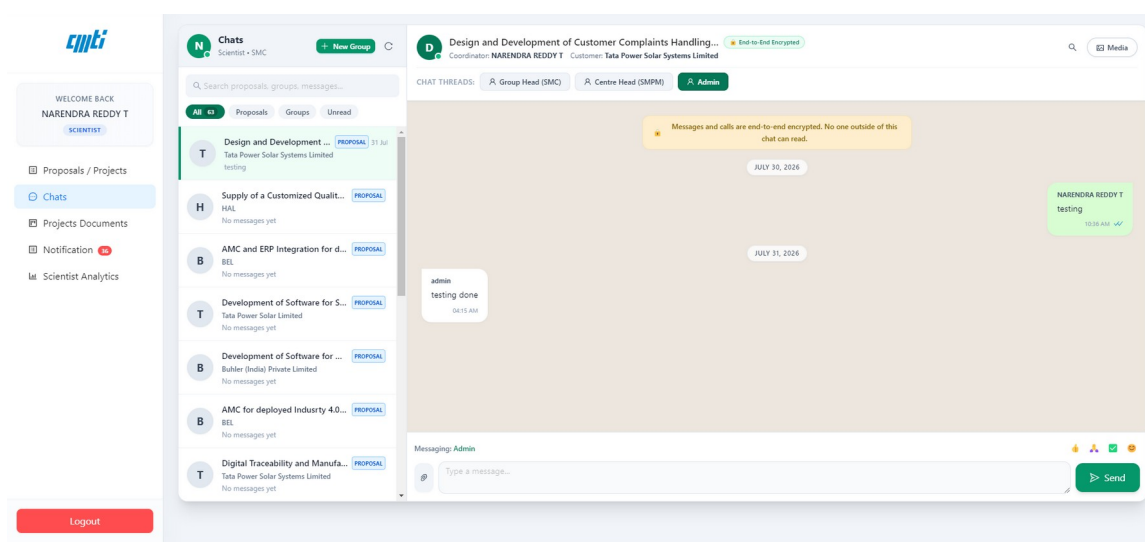

Figure 5

5.3 Projects Documents

Purpose: The Projects Documents section allows the Centre Head to view project-related documents for all projects belonging to Groups within their Centre.

How to access: Click Projects Documents in the main navigation sidebar.

The Centre Head can view documents associated with the Centre's projects, such as:

- Enquiry
- Proposal
- Purchase Order (PO)
- PO Acknowledgment
- Project Cost Estimation Sheet
- Closure Report
- Other project documents available through the system

IMPORTANT

The Centre Head has view-only access to project documents. Centre Heads cannot upload documents from the CH account.

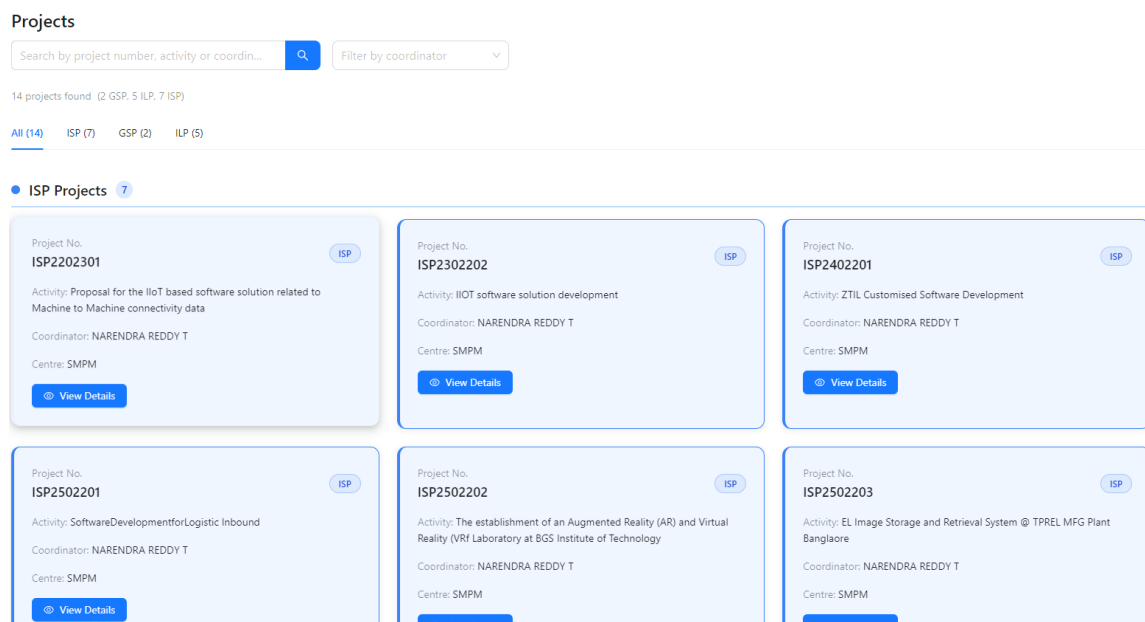

Figure 6

5.4 Notification

Purpose: The Notification module keeps the Centre Head informed about activities related to projects and proposals belonging to Groups within their Centre.

How to access: Click Notification in the main navigation sidebar. A red badge next to it shows the current count of notifications.

Notification types include:

- Project updates
- Delivery and overdue alerts
- Proposal activity
- Project activity

- Document uploads or updates
- Other relevant Centre project notifications

Notifications displayed to the Centre Head are relevant to their assigned Centre only.

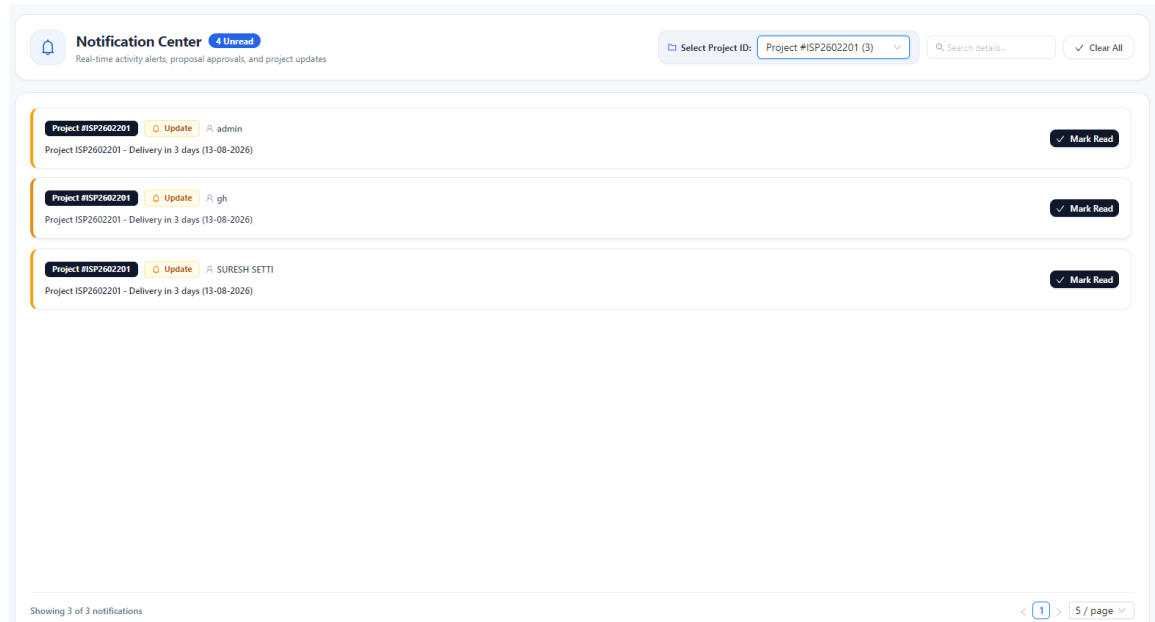

Figure 7

5.5 Centre Head Analytics

Purpose: Centre Head Analytics provides a Centre-level, real-time visual overview of proposals and projects belonging to Groups within the Centre Head's assigned Centre.

How to access: Click Centre Head Analytics in the main navigation sidebar.

The Centre Head can analyze:

- Proposal counts
- Project counts
- Project status
- Financial amounts
- Groups
- Coordinators
- Project codes
- Individual projects / activities
- Centre-level trends
- Completed and ongoing projects
- Pending / non-converted proposals

KPI Cards / Overview

The top-level analytics provide an overall view of the Centre Head's Centre, including categories such as:

- Proposals Received
- Converted to Projects
- Ongoing Projects
- Completed Projects
- Technically Completed
- Financially Not Completed
- Financially Completed
- Pending / Non-Converted Proposals

Where applicable, values can be displayed as a Count or a Financial Amount. Financial amounts are presented in Crores where the application uses the Crore format.

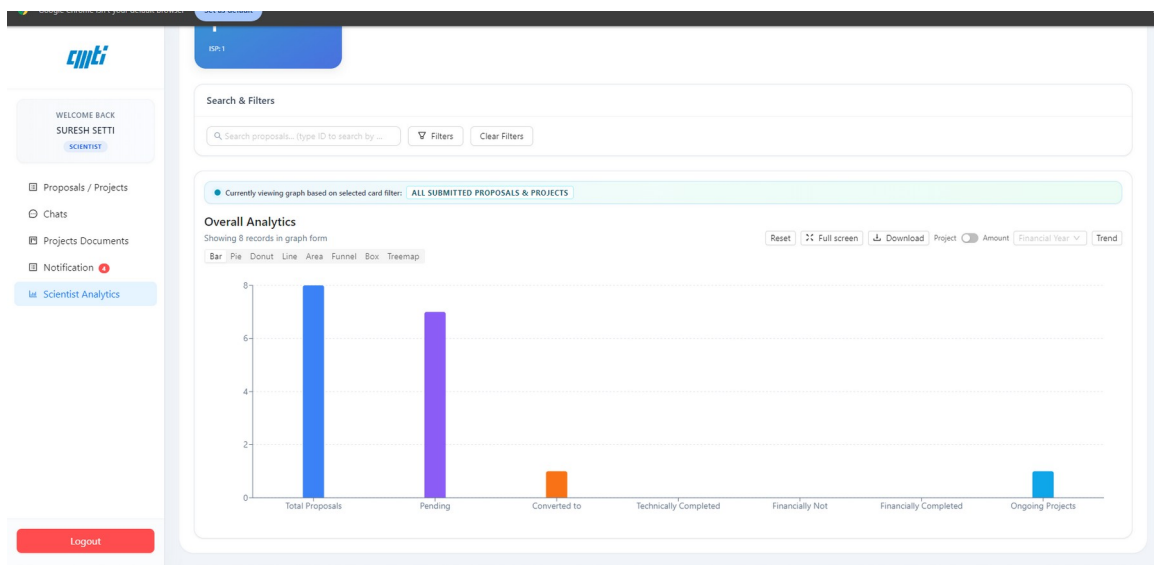

Figure 8

Metrics Switcher

Count: Displays the number of proposals/projects.

Financial Amount: Displays the financial value associated with the selected data, formatted in Crores where applicable.

Chart Types

The Centre Head can use multiple chart formats to analyze Centre-level data:

- Bar Chart
- Pie Chart
- Donut Chart
- Line Chart
- Area Chart
- Funnel Chart
- Box Plot
- Treemap

Drill-Down Navigation

The Centre Head follows this navigation path:

Top Level → Group Level → Coordinator Level → Category Level → Project Code Level → Project Name / Activity Level

A. Top Level

The Top Level provides an overall view of the Centre Head's assigned Centre. It shows overall statistics or financial amounts across categories such as Proposals Received, Converted to Projects, Ongoing Projects, Completed Projects, and other available project status categories.

Chart Dimension: Category. The Centre Head can click a category to drill further into the data.

B. Group Level

When the Centre Head clicks a category from the Top Level, the system drills down to the Group Level. The data is grouped by Group, showing the proposal/project distribution for each Group belonging to the Centre.

Chart Dimension: Group. This allows the Centre Head to select a specific Group to continue the drill-down.

C. Coordinator Level

When the Centre Head selects a Group, the system drills down to the Coordinator Level. The data is grouped by Coordinator / Proposal Giver. For proposals that do not yet have a project number, the system uses `quotation_given_by_name`. For converted projects that have a project number, the system uses `project_co_ordinator`.

Chart Dimension: Project Coordinator. This allows the Centre Head to see how proposals and projects are distributed among coordinators within the selected Group.

D. Category Breakdown

When the Centre Head selects a specific coordinator, the system displays a category/status breakdown for that coordinator. The selected coordinator becomes the focus of the analysis. Possible categories may include ISP, GAP, GSP, ILP, DPP, LSP, CLP, SO, and other available categories/statuses.

E. Project Code Level

When the Centre Head selects a category for a coordinator, the system drills down to the Project Code Level. Projects are grouped according to their project code/prefix, for example ISP, GAP, GSP, ILP, DPP, LSP, CLP, or SO.

Chart Dimension: Project Code. This view helps the Centre Head understand how projects are distributed across different project codes.

F. Project Name / Activity Level

When the Centre Head selects a Project Code, the system displays the individual projects or activities under that code.

Chart Dimension: Activity. The Centre Head can use this level to identify individual projects/activities within the selected Group, coordinator, and project-code category.

Non-Converted / Pending Proposals

Trigger: When the Centre Head clicks the Pending bucket or the relevant Proposals category at the Coordinator Level.

Behavior: The system opens the Non-Converted Proposals / Pending Proposals modal. The modal displays stage-wise documents and relevant details for proposals that have not yet been converted into projects and belong to the selected coordinator/Group. The Centre Head can inspect the available information but cannot create or modify proposals from this view.

Drill-Back Navigation

For a Centre Head, the Back control returns to the immediately preceding level in the hierarchy: Centre → Group → Coordinator → Category → Project Code → Project Name / Activity. Unlike the Group Head, who is already restricted to a single group and bypasses Group selection, the Centre Head's drill-down and drill-back path includes the Group Level, because the Centre Head's data spans multiple Groups within the Centre.

- Back returns to the immediately previous applicable analytics level.
- Breadcrumbs can be used to navigate back to an earlier drill-down level.
- Reset clears the drill-down selections and returns to the top-level Centre overview.

Project Details

The Centre Head can open project details where available. This is viewing/monitoring information, not editing. The project detail view may contain:

General Information

- Project Number
- Proposal ID
- Customer Details
- Delivery Dates
- Project Coordinator

Technical Information

- Technical status
- Closure Report status
- Technical Completion Year

Financial Information

- Quote Amount
- Order Value
- Revised Amount
- Financial Completion Year

Payment Information

Where available, payment milestone information may include:

- Invoice Number
- Invoice Date
- Gross Amount

- Payment Clearance Status

Filters

The Centre Head can use the following filters to narrow the information displayed in charts and tables:

- Date Range
- Status
- Small Value Projects
- Search

The search may include Project Number, Customer Name, Proposal Description, or Project Code.

Excel Export

The Centre Head can download filtered drill-down project tables to an Excel (.xlsx) file where the export option is available. The export contains the currently filtered/selected project information. The Centre Head cannot modify records through the exported Excel file.

6. Note

NOTE — CENTRE DATA SCOPE

The Centre Head can view only the proposals, projects, documents, chats, notifications, and analytics associated with Groups within their assigned Centre. The Centre Head does not have access to projects belonging to other Centres.

Centre Head Permissions

Function	Centre Head Access
View Centre Proposals	Yes
View Centre Projects	Yes
View Projects across Groups within the Centre	Yes
View Project Details	Yes
View Project Analytics	Yes
View Project Documents	Yes
View Notifications	Yes
Chat with Project Coordinators	Yes
Chat with Centre Project Admin	Yes

Function	Centre Head Access
View Financial Information	Yes
Use Analytics Drill-Down	Yes
Export Filtered Data to Excel	Yes, where available
Create Proposal	No
Create Proposal Document	No
Upload Proposal Document	No
Upload Project Document	No
Edit/Create Scientist Proposal Records	No
View Other Centres' Projects	No

Q: Which proposals and projects will I see when I log in?

A: The Centre Head will see proposals and projects belonging to their assigned Centre, including projects under the Groups within that Centre. Projects belonging to other Centres will not be displayed.

Q: Can a Centre Head create a proposal?

A: No. The Centre Head account is view-only for proposals and projects.

Q: Can a Centre Head upload project documents?

A: No. Document upload is not available to the Centre Head account.

Q: Can I view documents for all projects in my Centre?

A: Yes. The Projects Documents section provides access to project documents belonging to projects across all Groups within your Centre, subject to the documents available in the system.

Q: Can I chat with project coordinators?

A: Yes. The Chats module allows the Centre Head to communicate regarding projects and proposals with project coordinators, Group Heads, admin, and other permitted Centre participants.

Q: Can I view projects from another Centre?

A: No. Your data is automatically restricted to your assigned Centre.

Q: What does the Analytics drill-down show?

A: The analytics drill-down allows the Centre Head to move from the overall Centre view to Groups, coordinators, categories, project codes, and finally individual project names/activities.

Q: Can I switch between project count and financial amount?

A: Yes. Use the Count / Financial Amount metrics switcher in Centre Head Analytics.

Q: Can I export project information?

A: Yes. Where the export option is available, filtered drill-down project tables can be downloaded as an Excel file.

Q: What happens when I click Pending?

A: The system opens the pending/non-converted proposal information so that you can review proposals that have not yet been converted into projects.

7. Conclusion

This manual has covered how to log in to the Proposals & Projects Management System, navigate Centre Head Analytics, view proposals and projects, work with project documents, use the Chats module, and understand notifications and statuses. Following the steps and descriptions in this guide will help you use the system efficiently as a Centre Head.

The Centre Head module provides a centralized view of the Centre's proposals and projects across all Groups, enabling the Centre Head to monitor Groups, coordinators, project progress, documents, communications, notifications, financial information, and analytics. The Centre Head role is primarily for managing, visibility, communication, and analysis.

For any issues not covered in this manual, please contact your system administrator or PPM team for further assistance.
